International Conference on Intelligent Computing and Smart Communication

ICSC 2019

20-21 April 2019, THDC-IHET, Tehri, India

[Call for Paper: Special Session](#)

Title of Special Session: “Emerging Trends & Technologies in Computing”

Introduction of the Session:

The main aim of this special session is to discuss about the Emerging Trends and Technologies in Computing and Management. This session aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results about all Emerging Trends and Technologies in Computing and Management. This will provide a forum for the interaction and integration in the related disciplines. This special session presents original research and technological development for addressing real and complex issues related to society and technology.

ICSC - 2019

Owing to the responsibility in the field of research and technology, THDC-IHET and SoE, CUSAT, Kochi is organizing an International conference on Intelligent Computing and Smart Communication, (ICSC-2019) from 20-21 April 2019 at THDC-IHET, Tehri. The conference will witness several national, international delegates and researchers sharing their views and new ideas in the field of computing and communication. ICSC-2019 is expected to provide an opportunity for researchers to meet and discuss the latest solutions, scientific results and methods in solving intriguing problems in the fields of computing and communication along with real world applications. The conference program will include workshops, special sessions and tutorials, along with prominent keynote speakers and regular paper presentations in parallel tracks.

All the accepted and presented papers will be published in the **Algorithms for Intelligent Systems (AIS), a book series of Springer Nature.**
