International Conference on Intelligent Computing and Smart Communication  
ICSC 2019

**20-21 April 2019, THDC-IHET, Tehri**

### **Call for paper: Special Session**

**Title of Special Session: "5G : Communications, Applications and Networks"**

### Introduction of the session:

The aim of this session is to bring the researchers and students of 5 G Communications. The Participants can share their research work; present their ideas on silent features, technological design (architecture), advantages, shortcomings, challenges, and future scope of 5G technology.

This session provides a good platform for researchers to enrich their knowledge towards future wireless communication systems.

### Topics of the session:

1. Challenges in the design of 5G Technologies.
2. MIMO and Massive MIMO antenna Configuration.
3. Centimeter wave and millimeter wave based communications for 5G.
4. New applications and requirements of 5G Technologies

### Organized by:

1. Dr.E.Kusuma Kumari,  
Prof & Head, Department of ECE  
Sri Vasavi Engineering College  
Andhra Pradesh
2. Dr. Purnima K. Sharma,  
Associate Professor, Department of ECE  
Sri Vasavi Engineering College  
Andhra Pradesh

THDC Institute of Hydropower Engineering & Technology, Tehri  
Bhagirathipuram, Tehri Garhwal, 249124 Uttarakhand, India

International Conference on Intelligent Computing and Smart Communication  
ICSC 2019

**20-21 April 2019, THDC-IHET, Tehri**

3. Dr. Dinesh Sharma,  
Assistant Professor, Department of ECE  
CCET College, Chandigarh
  
4. Dr. M. Thamarai,  
Professor, Department of ECE  
Sri Vasavi Engineering College  
Andhra Pradesh

## ICSC - 2019

Owing to the responsibility in the field of research and technology, THDC-IHET is organizing an International conference on Intelligent Computing and Smart Communication, (ICSC-2019) from 20-21 April 2019. The conference will witness several national, international delegates and researchers sharing their views and new ideas in the field of computing and communication. ICSC-2019 is expected to provide an opportunity for researchers to meet and discuss the latest solutions, scientific results and methods in solving intriguing problems in the fields of computing and communication along with real world applications. The conference program will include workshops, special sessions and tutorials, along with prominent keynote speakers and regular paper presentations in parallel tracks.

All the accepted and presented papers will be published in the **Algorithms for Intelligent Systems (AIS), a book series of Springer Nature.**
